Balled and burlapped stock is offered for sale at the Nursery only. No crating. Truck deliveries at cost.

Lining out stock and perennials are Beetle Certified and will be shipped anywhere in U. S.

2 CHOICE PERENNIALS

HEMEROCALLIS KWANSO FLORE PLENO

(Double Flowered Day Lilies)

Day lilies have become one of the most popular flowers in gardens everywhere. They are perfectly hardy, easy to grow, even on poor soils, in full sun or partial shade, on a brookside or for naturalizing. They are free from disease and will flower freely during the heat of midsummer. No other plant is more reliable, more self-sufficient.

We are offering what we consider one of the finest of all day lilies, Kwanso Flore Pleno, the only double day lily known. Prize winner in Royal Horticultural Society. Large double, rich golden bronze flowers in stalks 3½ to 4 feet tall, up to 12 flowers in each stalk. Bloom in August.

Large blooming size clumps. \$4.00 per 25. \$12.00 per 100. \$100.00 per 1000.

IRIS KAEMPFERI (Japanese Iris)

The modern Orchids of the garden. This Great Gift of the Orient is now a **must** for all outdoor gardeners.

This Iris is completely different from the common type of Iris. The foliage is narrower, of darker green and more sword-like, lending grace to your garden even when not in bloom. Iris Kaempferi is our favorite flower at Brookfield. It is perfectly hardy, immune from insects and diseases, easy to grow. Will thrive in spots that are too wet for other flowers, yet will bloom well in a dry, well drained location if supplied with water occasionally. They do not like lime.

The huge flowers are produced in a wide variety of colors that have the richness of an Oriental rug, and give an exotic picture that no other flower garden can duplicate. Here in New Jersey they bloom during late June to the middle of July.

Large blooming size clumps from divisions of choice varieties, mixed colors. No labels.

\$4.50 per 25. \$15.00 per 100. \$140.00 per 1000

250 Perennials at the 1000 rate.
